

GP[®] FIXING STRAP

Rev: June 2019

Ground Gas Protection

GP[®] FIXING STRAP is a PVCU flexible pre-drilled strap designed to secure flexible DPC's and DPM's to blockwork.

The flexible, pre-drilled straps can easily accommodate surface irregularities, providing a uniform secure fixing of polymer, bitumen, polythene and flexible membranes.

Usage: Where robust detailing requires a DPC spanning the cavity to be secured and linked with a vertical vapour control layer, and for compliance to NHBC chapter 6.2 where positive interfacing is required.

TRADITIONAL CONSTRUCTION COMPATIBLE

Yes

TIMBER FRAME CONSTRUCTION COMPATIBLE

Yes

NEW WORK APPLICATIONS

Yes

RETROFIT / REMEDIAL APPLICATIONS

Yes

MASONRY SKIN STYLES

Most regular styles

UNDULATING / SPLIT MASONRY FACES

Normally compatible

CURVED WALL ON PLAN APPLICATIONS

Yes - use unhindered

MATERIAL

PVCU

COLOUR

Black

EXTRUDES / COMPRESSES UNDER LOAD

No

CFC

CFC Free

ODP

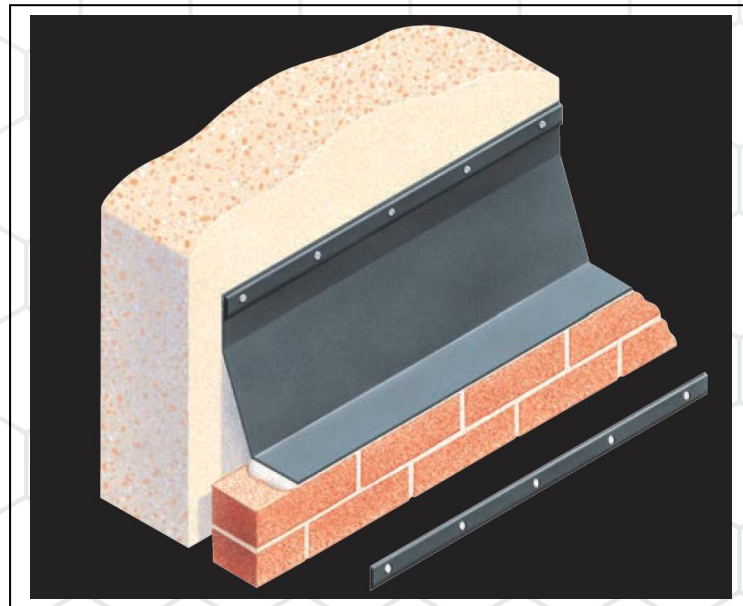

Zero

REGULATION COMPLIANCE

Aids a compliant construction detail

MAY BE USED IF CAVITY INSULATION PRESENT?

Does not affect functionality

DIMENSIONS

2000mm x 30mm

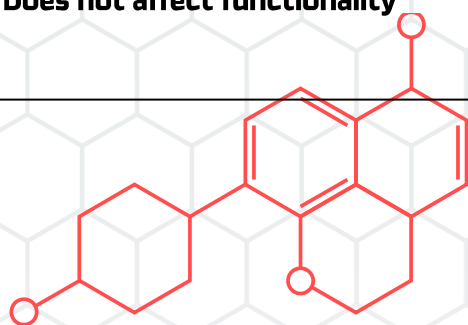

Predrilled 4mm holes @ 150mm centres

PACK SIZE

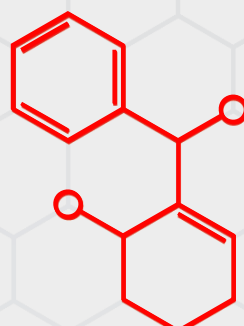

50 units

DESIGN CONSIDERATIONS

Cavity conditions can be seasonally humid, consider use of stainless fixings to secure
