

GP[®] PROTECTION BOARD

Rev: June 2019

Ground Gas Protection

GP[®] PROTECTION BOARD is a tough, hard wearing Protection Board with high compressive strength, and impact resistance. GP[®] PROTECTION BOARD is designed to protect JUTA membranes from concrete reinforcement, backfill and follow on trades (including light traffic)

For further information on our product range please contact JUTA UK.

SPECIFICATION

Technical Data	
Colour	Black
Polymer	Polypropylene
Thickness	3.0mm
Weight	350 g/m ²
Size	2.4m X 1.2m

BENEFITS

- A tough, Hard Wearing, flexible polymeric board for protecting Ground Gas and Waterproofing membranes against mechanical damage, pedestrian or vehicular traffic and abrasion caused by backfilling
- Protects against ground salts and most corrosive chemicals
- Light and easy to handle: allows ease of storage, carrying and positioning on site
- Provides protection to JUTA UK membranes
- Easily cut and shaped on site
- Easily scored and folded for continuous protection at corners

HANDLING

GP[®] PROTECTION BOARD is supplied in 2.4m x 1.2m sheets, at 1kg/sheet they can be handled with ease.

STORAGE

GP[®] PROTECTION BOARD should be stored flat on stable/level ground, with no other material stacked on top.
